

# EdgeLock® A30 Secure Authenticator

## A30

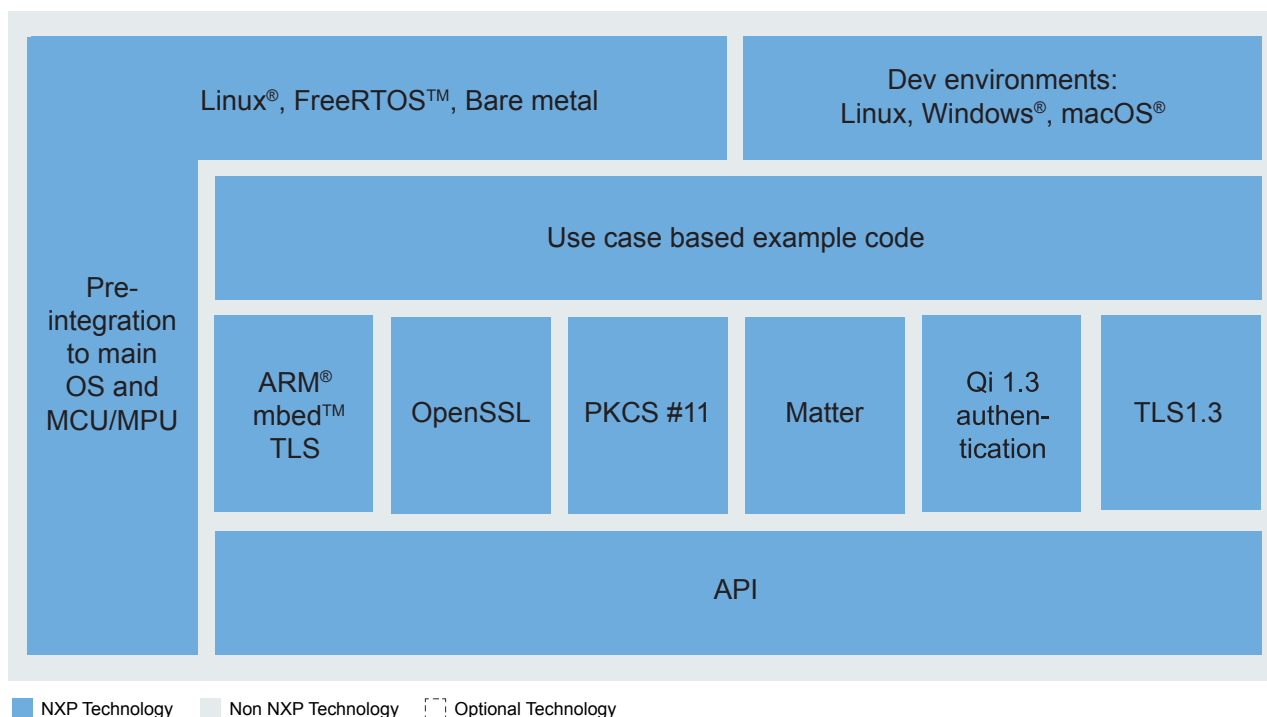

Last Updated: Apr 7, 2025

The EdgeLock A30 is a ready-to-use, Common Criteria EAL 6+ certified secure authenticator that includes advanced security mechanisms, including AVA\_VAN.5, with symmetric and asymmetric crypto. It has an I<sup>2</sup>C target for easy connection to MCUs/MPUs and scales quickly to high volumes, so manufacturers can quickly deliver IoT devices and accessories. The EdgeLock A30 meets the need for secure accessory and device authentication in a range of markets, while also satisfying new and upcoming regulatory requirements for security, protection and sustainability, including Digital Product Passport.
