This page contains information on a product that is no longer manufactured (discontinued). Specifications and information herein are available for historical reference only.

Last Updated: Nov 20, 2024

The BMI7014 is a Li-Ion battery cell controller IC designed specifically for industrial applications including Energy Storage Systems and Uninterruptible Power Supplies. It features:

- Monitoring of up to 14 Battery Cells & 7 Temperatures.
- Configurable Averaging of Cell Voltage Measurements (Digital Filtering).
- Robust Isolated 2.0 Mbps Communication Interface.
- Onboard Balancing up to 300 mA.
