

# Layerscape FRWY-LS1012A Board

## FRWY-LS1012A

Last Updated: Dec 14, 2024

The Layerscape® FRWY-LS1012A board is an ultra-low-cost evaluation and development platform for LS1012A Series Communication Processors built on Arm® Cortex®-A53. This tool provides a hands-on experience for IoT, edge computing, and various advanced embedded applications. Features include easy access to processor I/O, low-power operation, micro SD card storage, an M2 connector, a small form factor, and expansion board options via mikroBUS™ Click Module. The mikroBUS™ Module provides easy expansion via hundreds of powerful modules supporting sensors, actuators, memories, and displays.
