

Layerscape LS1043A Reference Design Board

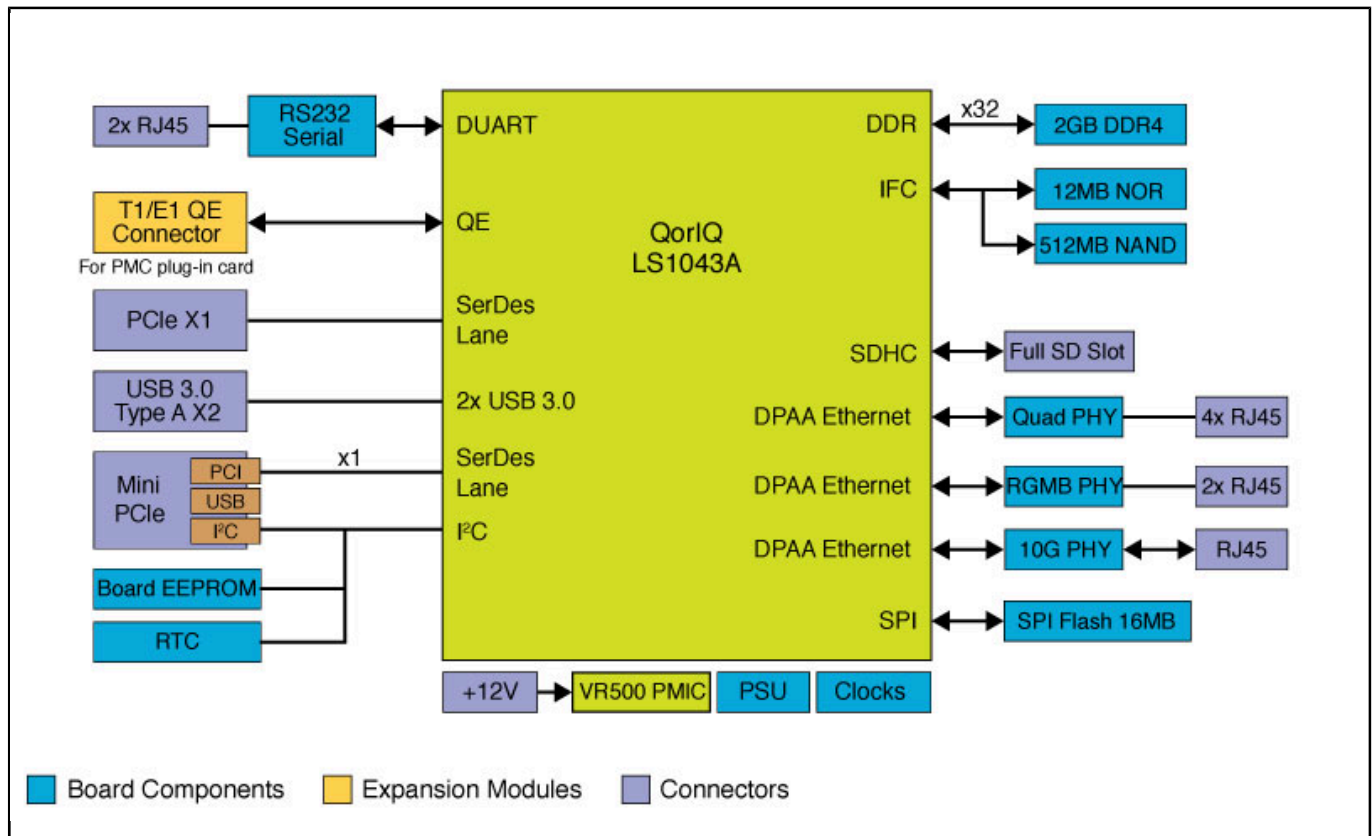

LS1043A-RDB

Last Updated: Mar 18, 2025

The LS1043A reference design board (RDB) is a computing, evaluation, and development platform that supports the Layerscape LS1043A architecture processor. The LS1043A-RDB can help shorten your time to market by providing:

- A reference for customers own hardware development
- A debug tool to check behaviors on the board compared to behaviors seen on customer boards
- A preloaded Embedded Linux® Software Development Kit (SDK) for Layerscape processors v1.8
