

ColdFire® V3 Microprocessor with LCD driver, Ethernet, USB and CAN

MCF532X

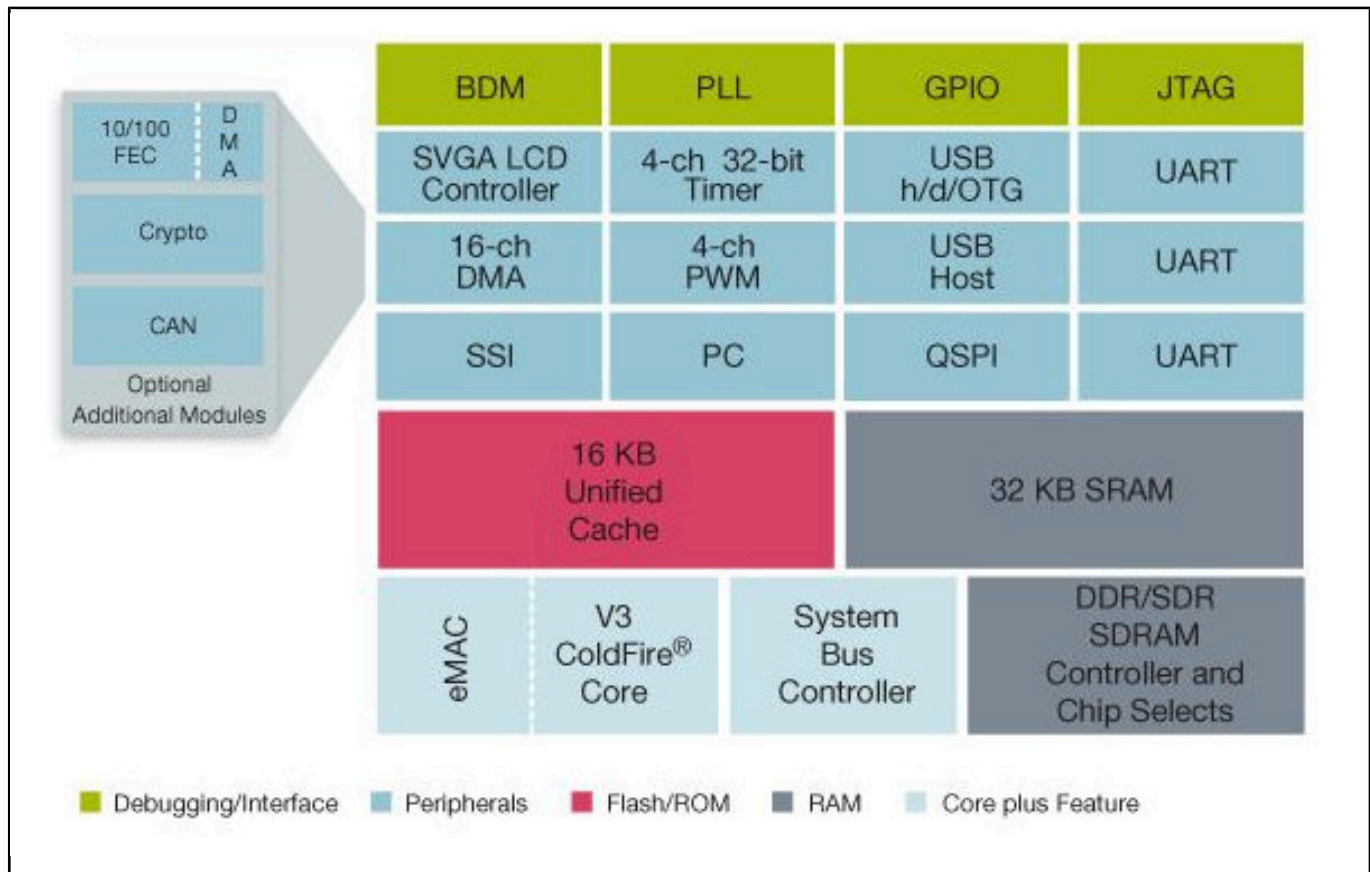

Not Recommended for New Designs

This page contains information on a product that is not recommended for new designs.

Last Updated: Nov 8, 2022

By introducing the first integrated LCD controller on a ColdFire® device, the MCF532x family of microprocessors addresses the growing demand for human-machine interface (HMI) and industrial control applications while maintaining a rich level of connectivity and security integration.
