

32 Bit Microcontroller

MPC565

Last Updated: Apr 10, 2025

The MPC565 is a member of the MPC500 family of microprocessors that implements the Power Architecture® instruction standard architecture. The MPC565 is integrated with a floating point unit, an advanced peripheral set and 1 MB of flash memory on a single chip. This combination is ideal for high-performance automotive applications as well as other control-intensive applications.
