

PNEV5190MB NFC-Module

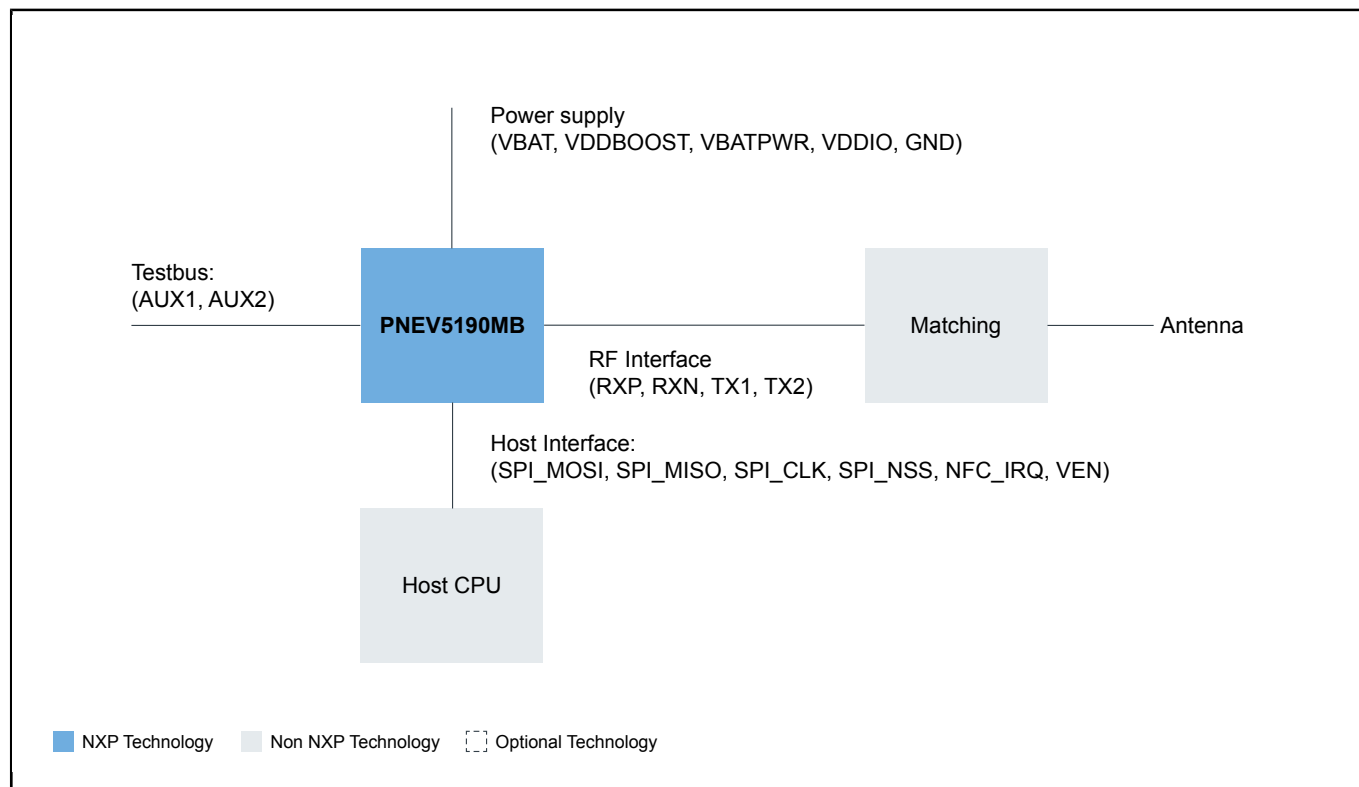

PNEV5190MB

Last Updated: Nov 29, 2022

PNEV5190MB implements all relevant components required to operate the PN5190 including crystal, DC/DC, blocking capacitors and the main part of the EMC filters.

The thin multilayer PCB allows the soldering on low-end PCB's, lowering the overall system cost and serving as an example of how PCB routing and component placing can be done for the PN5190 in commercial designs.
