

800 V Battery Management System (BMS) Reference Designs Using ETPL

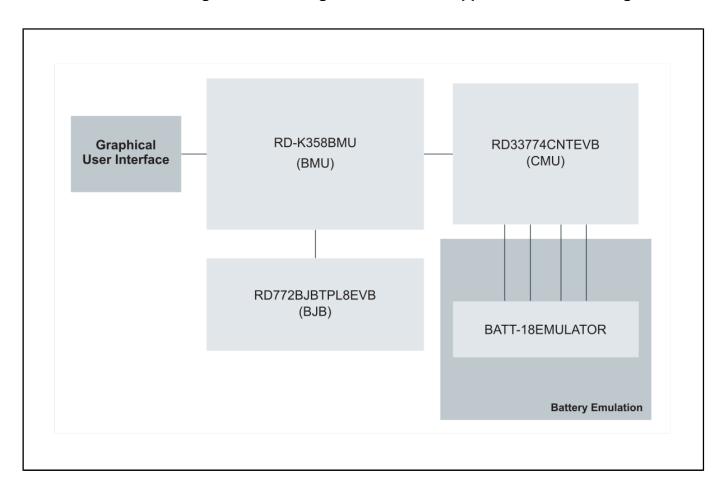

RD-HVBMSCT800BUN

Last Updated: Dec 10, 2024

The RD-HVBMSCT800BUN is a reference design bundle for 800 V high-voltage battery management systems (HVBMS). It provides a complete hardware solution including a RD-K358BMU battery management unit (BMU), a RD33774CNT3EVB cell monitoring unit (CMU) and a RD772BJBTPL8EVB battery junction box (BJB), software drivers and a scalable functional safety documentation set.

Carmakers, suppliers and software ecosystem partners can use this bundle to develop, test and showcase new battery architectures and innovations.
