

Voice Intelligent Technology Wake Word and Voice Command Engines

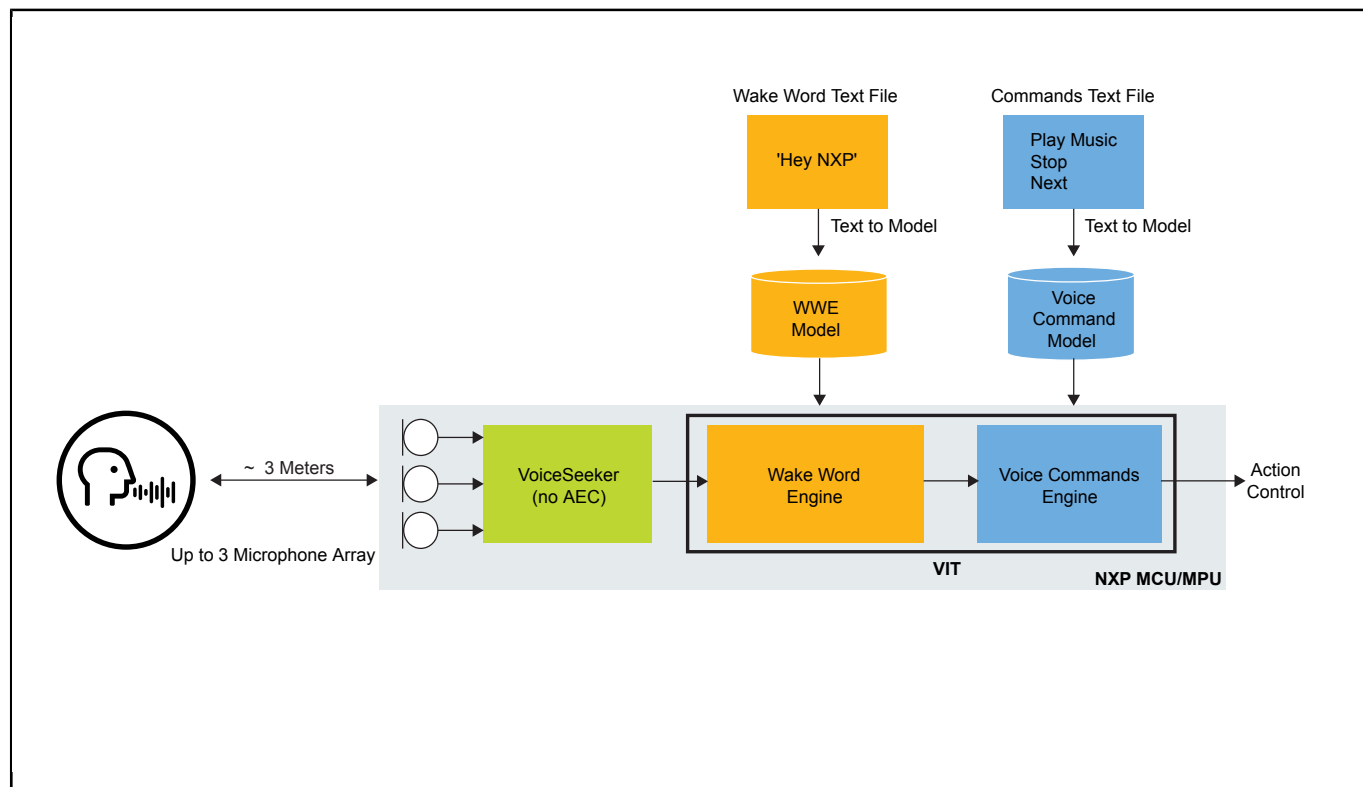

VOICE-INTELLIGENT-TECHNOLOGY

Last Updated: Nov 13, 2024

Voice Intelligent Technology (VIT) Wake Word and Voice Command Engines provide free, ready to use voice UI enablement for developers. It enables customer-defined wake words and commands using free online tools. The library and voice control software package is delivered via the [MCUXpresso SDK](#) or [Linux BSP](#).

Based on deep learning speech recognition technologies, this software package provides a complete wake word and voice command solution. VIT can be easily configured with [VoiceSeeker](#), a multi-mic audio front end supporting far-field operation. The VIT Wake Word and Voice Command Engines are available royalty-free on several platforms including Arm® Cortex®-M7, M33, A-53 or Cadence Xtensa® HiFi 4 and Fusion F1 cores.
